Vision Statement

The Division of Student Affairs is dedicated to the personal, intellectual, professional, interpersonal, spiritual development of students that promotes a healthy and diverse campus community.

Mission Statement

The mission of the Division of Student Affairs is to:

1. Promote student learning and holistic development that also fosters a recognition and appreciation of diversity;
2. Provide services, facilities, and physical structures which encourage interpersonal engagement, stimulation of the learning process and promotes mental, physical health and wellness;
3. Foster a campus community which promotes student involvement through enhanced interpersonal and social engagement opportunities, organizations and programs;
4. Develop and enhance collaborative relationships with students, faculty, staff, and the external community to better serve student needs and ensure high quality services and programs;
5. Develop and expand efforts that encourage student recruitment, retention, and graduation.
The Division of Student Affairs commits itself to the enhancement of the personal, educational, occupational, and professional development of students. The University is more than an educational institution. It is an academic community where faculty, staff, and students work together for the advancement of the University and the outside community.
Student Union, Activities and Recreation combines co-curricular opportunities for students through programs, services, and facilities including the Student Union, Student Activity Center, Belk Gymnasium, Cone University Center and outdoor recreational fields. Students can participate in a wide range of activities including those offered through Recreational Services, such as intramurals and club sports as well as those offered through Student Activities, including leadership, multicultural, outdoor and weekend programs, and support for over 350 student organizations.
The Popp Martin Student Union and Cone University Center provide services and amenities for all members of the University community including students, faculty, staff, alumni, and guests. Both offer welcoming environments supporting a diversified array of programming, gathering, and study spaces that create opportunities for enhanced educational, cultural, and social interaction. Cone University Center houses CRES (Conference, Reservations & Event Services) and many other campus departments. The Popp Martin Student Union serves as headquarters for Student Activities, Student Government, and a connection to over 350 student organizations. The Popp Martin Student Union also features dining options, an art gallery, movie theater, NinerTech Computer Store, Barnes & Noble at UNC Charlotte, The Campus Salon, games, meeting rooms, and lounge areas.
The **Student Activity Center and Venue Management** is charged with the stewardship of the James H. Barnhardt Student Activity Center (including Halton Arena), the Judy W. Rose Football Center and the game-day operations of Jerry Richardson Stadium. To the thousands of people who attend events in these venues, the SAC serves as the welcoming ‘front porch’ of the University. The facilities are busy with a variety of campus and community events as well as campus recreation. Daily operation of these facilities requires numerous student staff for whom this is an introduction to professional employment after graduation.

Student Activities is committed to creating student learning and development opportunities that inspire campus involvement and civic engagement. Encompassed within Student Activities are opportunities for students to develop lifelong individual and team leadership skills through intentionally structured activities and student organization involvement; learn about identity and diversity, civil interaction and develop cultural competencies; and to become informed about and engaged with the University community. The professional staff supports the work of UNC Charlotte students and provides opportunities for holistic development.
The **Department of Recreational Services** offers every UNC Charlotte student the opportunity to take advantage of a wide variety of recreational activities/events and services. Our staff of qualified professionals is dedicated to improving the overall wellness of our campus. Recognizing that needs, interests, and skill levels of individuals differ, we pride ourselves in offering “something for everyone”, whether it is intramural sports, sport clubs, aquatics, open recreation, fitness, or one of many special events offered during the year.
The staff of Research and Systems Development support both the research and technology missions of the division. In addition to providing direct technology support to the Dean of Students and the Vice Chancellor’s offices, the group also assists in coordinating assessment activity within the division through a wide range of data collection, extraction and analysis, survey administration, and research methodology development. Members of the team represent the division on a significant number of university wide technology and assessment committees, teams and other groups.
The mission of the Dean of Students Office is to advance a UNC Charlotte culture of care by assisting students in navigating the opportunities and challenges of the Niner Nation Experience. Program areas housed within the Dean of Students Office include Fraternity and Sorority Life, Latino Student Services, Minority Student Services, New Student and Family Services, Off-Campus and Volunteer Outreach, Student Assistance and Support Services, Student Conduct, and Veteran Services.

The Dean of Students Office, and its programs and services, is the central point of contact when individuals want to get involved, need to resolve a conflict, have questions about policies and procedures, or are trying to identify campus resources and information that will put them on the path to success. Through dedicated, passionate, and knowledgeable staff, the Dean of Students Office provides guidance and advocacy for students, empowers independent thinking and problem solving skills, exposes students to diverse perspectives, encourages personal accountability, and cultivates civility and citizenship.
The **Department of Housing and Residence Life** is comprised of a vibrant and energetic team of professionals committed to creating communities that enhance the academic, personal and social development of residential students and to providing students with a variety of services and comfortable living environments that are clean, safe, and affordable. Approximately 5,700 students live in 14 residence halls and Greek Village.
**Health Programs and Services** provides comprehensive wellness-related care and education for students through the programs and services of the Counseling Center, Wellness Promotion, and the Student Health Center.

Health Programs and Services provides comprehensive wellness-related care and education for students through the programs and services of the Counseling Center, Wellness Promotion, and the Student Health Center.

The Counseling Center supports the academic, personal, and interpersonal development of UNC Charlotte students by providing short-term individual and group counseling; consultation for faculty, staff, parents, and students; and educational programs to the campus community. The Center is staffed by experienced and licensed or license-eligible psychologists and social workers as well as graduate students in psychology, counseling, and social work.
**Health Programs and Services** provides comprehensive wellness-related care and education for students through the programs and services of the Counseling Center, the Student Health Center, and Wellness Promotion.

The **Student Health Center** provides primary medical care and wellness promotion to UNC Charlotte students. Among its many services, it has a pharmacy, psychiatry, immunization clinic, nutrition services, and physical therapy. It administers the University’s immunization compliance requirement and the student health insurance plan.

Health Programs and Services provides comprehensive wellness-related care and education for students through the programs and services of the Counseling Center, Wellness Promotion, and the Student Health Center.

The Center for Wellness Promotion is a confidential campus resource for education, information, consultative services, and referrals around student health and wellness needs. The Center is staffed by wellness promotional professionals with relevant certifications and licenses, as well as by graduate and undergraduate students in public health and social work.
